## July -21

Greetings of the day!!

Thank you so so much to all of you.... the entire team of Symbiosis....especially the Leaders....for being such a GREAT and Fantastic support and Motivation to Tanisha.... I consider it as the BEST and CHOICEST BLESSING of the ALMIGHTY to have got this opportunity for my daughters to study under such an AMAZING TEAM of teachers.....this long association of 18 years (2003 -2021) has been a marvelous experience. Out of these 18 yrs more than 10yrs I have been the Parent Rep and have worked very closely with the Teachers and the Leaders.

It was my dream that my children should study in SYMBIOSIS and I could live that dream to the fullest as not even once did I regret that my daughters are not in CBSE.

My HEARTFELT THANKS to the entire team for being there for my daughters whenever they required.....Guiding them nurturing them into Wonderful Personalities.....

It's an emotional moment for me as well .....

Thank you Ma'am thank you so so much for being there.....

Best wishes to TEAM SYMBIOSIS.....

**Thanks & regards,  
Dr. Mrunal Kothari**

## *Adieu and Thank-you - mixed bag of emotions*

We are writing this email to share our thoughts and express our heartfelt gratitude towards the efficient leader and her able staff. We are happy that Aarush is all set to take on the upcoming challenges as he steps into a new world. Surely it is not as protective and caring as it was for all these years but the star pupils have been nurtured and groomed very well by the school.

We still remember the first email written to you in 2016 and then every email thereafter. There has been a response to every email that was sent, despite a very busy schedule. We totally appreciate your involvement, help, support and your contribution to taking Symbiosis School, Prabhat road to the next level. We will continue to fondly address you as the HM Modi of Symbiosis.

Standard 1-4 teachers were (I think most of them are no longer with the school) loving and made sure that the basics are well taught. Standard 5-7 teachers share a special bond with these children and they have been very popular. I remember in spite of being in the secondary, children made up their way during the recess to talk to a few teachers like Tanashree Ma'am, Pradnya Ma'am, Suvarna Ma'am. They did miss them a lot. Thanks a ton to these all-time favourite teachers!

Standard 8-10 teachers are a more robust lot to handle the teenaged monkeys. Handling the children at this stage is a mission critical for the parents too. We cannot imagine the hardships the teachers must have faced to monitor these children. Thanks to the teachers, Bharati Ma'am and you to make sure that these future ready champs are under control, focused and rooted. We would also like to thank Shilpa Bokil Ma'am and Aparna Ranade Ma'am for their soft spoken, encouraging talks and support.

## July -21

Needless to say, the pandemic situation was handled very well by the school. Your vision and thoughts pulled off Symbiosis standard 10 students to be way ahead of others. This COVID affected batch has never missed any of the schedules, thanks to your meticulous plan, supervision and timely, perfect execution by your secondary staff.

Once again, thanks a ton for every bit, to you, the teachers, the office staff and the Kaka/Maushis of Symbiosis School, Prabhat road! Well, our association with the school continues as the younger one is still around. I am sure it's going to be a smooth sailing journey.

**Thanks & Regards,  
Reena & Mandar Joshi**

## ***Congratulations team Symbiosis on successfully tiding over Covid crisis***

Abhijit and I would like to congratulate you and all the teachers and staff of Symbiosis for successfully tiding over the Covid crisis with this batch of SSC students passing out.

We must appreciate you and your team for your meticulous planning and execution of the entire year's academic schedule, exams, prelims through all the uncertainties and changing protocols. I am in absolute awe of your leadership skills and commitment towards the school, students and staff.

Covid crisis has changed numerous things all over the world. One of the most important field taking the brunt of the impact has been the education sector, our schools and our children. Still we as parents were constantly reassured and all our worries laid to rest as you took all the pressure of seeing our children through these uncertain times. Online classes, continuous guidance by the teachers, they all have been greatly responsible for our children's success. Special mention to Siddharth's class teacher Varsha Joshi ma'am for reassuring us and laying all our doubts to rest. Siddharth is indeed lucky to be a Symbiosis student. Symbiosis has allowed both our children Siddharth and Malikaa to balance their tennis careers and studies all through their schooling years.

As Malikaa leaves for Carnegie Mellon for her undergrad in her favorite subject Mathematics, a subject you taught her to love, she carries with her all fond memories of her school, teachers and her beloved Principal. Both our kids have been taken care of by Veena Ma'am as her own.

July -21

A huge round of applause for the able team of teachers under the leadership and guidance of our wonderful Principal Veena Havanurkar Ma'am. It must have been a tough task for the teachers to shift to online teaching, correction of papers - all this while following constantly changing government protocols and continuous lack of clarity.

An important lesson that Covid has taught us is to adapt and still deliver.

Thank you as well for preparing our children for what might be some long term changes in the way education will be imparted post Covid. Let us all learn, adapt, accept and adjust to this changing world.

Thank you all from the bottom of our hearts for your unflinching support through these tough times.

**Best Regards,  
Abhijit & Vaijayanti Marathe**

## *Hats off to your efforts!*

It has been around two weeks since the Board results are declared. The students are still busy with their celebrations – Family lunch, Tekdi trails, badminton court bookings, birthday celebrations, pizza party and night overs. I see a lot of enthusiasm and happiness in the kids and the credit goes to all the teachers. I am sure as teachers and parents we feel much relieved and satisfied – after all together we have achieved the first milestone in the student’s year – The 10th Boards!

Each and every student or parent I have interacted with are very happy with the results! And this got me thinking, yes the year was a roller coaster ride, it was full of uncertainties and absence of in person teachings which is the very base of a school, but tougher were the results – especially with the 9th and 10th standard combined! While the students and parents were anxious after the criteria was declared, the teachers would have had sleepless nights. After all, you all shouldered a huge responsibility to make or break the future of the kids. I can only imagine the humungous efforts the teachers would have put in to come up with the results. While other schools were busy taking orals, calling for submissions, sending assignments after the criteria was declared, Symbiosis was all set! Our exams, assessments including the internal orals were all done and dusted! So even though the criteria was subjective and ambiguous, our school did an amazing job of evaluating in a fair, transparent and objective manner. The newspapers made it very clear, that keying in the results in the app was not a cake walk for sure!

## July -21

To sum up I can only say one thing – All of you know each and every student so well, love them from the core of your heart and hence could do justice to every single student. Hats off to your efforts! The students are walking out of the school with immense confidence, happiness, love for their teachers and pride in the school they studied! Symbiosis has become a part of their identity!

My sincere gratitude to you mam for your vision and dynamic leadership and to all the beloved teachers for their tireless and selfless efforts throughout the school life!

**Thanks & Regards,  
Vrinda Parasnis**

### STD 1

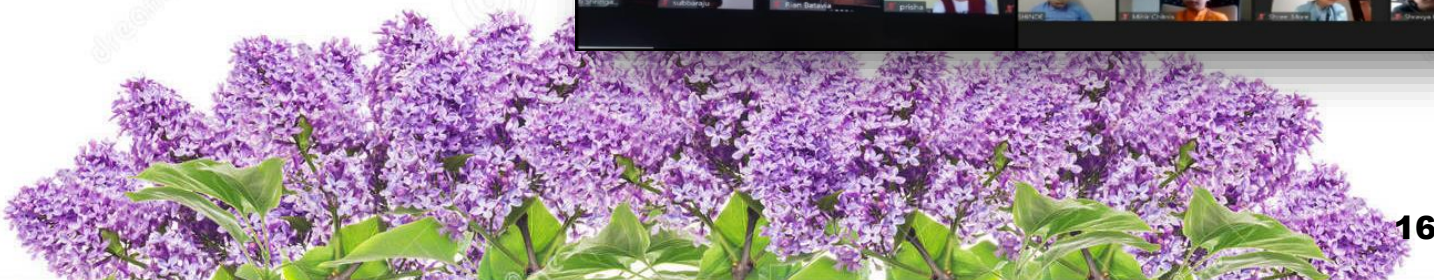

### Aashadhi Ekadashi

### STD 2

*Children of Std 1 and 2 celebrated Aashadhi Ekadashi with a lot of zeal and enthusiasm. During the online session, children were dressed up as varkaris. Some of them had dressed up like Lord Vitthal and Rukumini. The atmosphere was spiritual as everyone chanted 'MAULI'.*

# SYMBIOSIS SCHOOL

## July -21

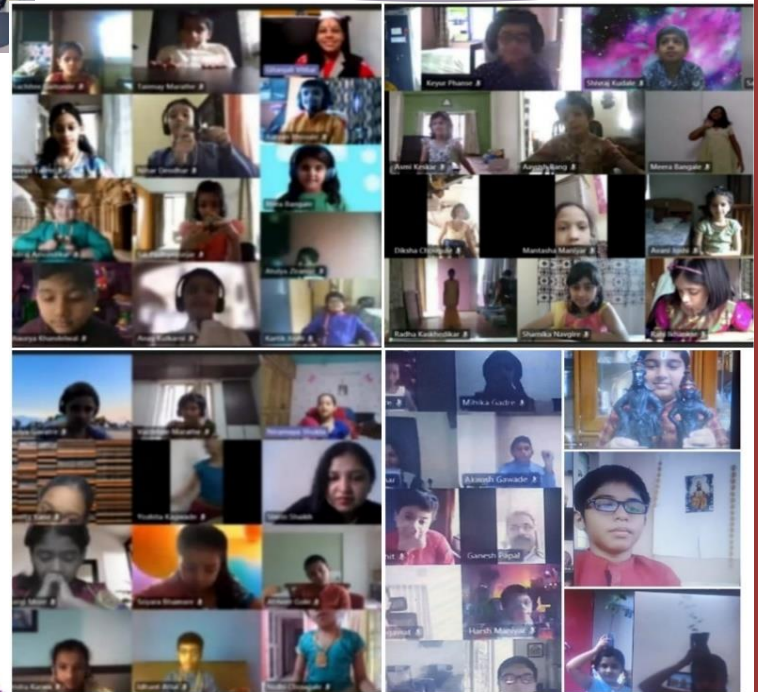

STD 3

Aashadhi Ekaadashi

STD 4

*Students of Std 3 and 4 virtually celebrated the Wari procession, on account of Ashadhi Ekaadashi, which teaches the values of discipline and devotion towards a common goal irrespective of position. Students dressed up as little warkaris and even chanted the 'gajar' "Gyanbatukaram, Dyanobachi palkhi" A few of them even sung abhangas and played taal-mrudung.*

July -21

## WORLD EMOJI DAY

*A graphic illustration not only conveys a stronger message than words alone, but it also adds colour and expression in our otherwise dull messages. Often, messaging only an emoji suffices.*

# SYMBIOSIS SCHOOL

## July -21

Our children of Std-5 made beautiful emoji masks to convey their feelings and thoughts. It was pure joy to see that our young students had selected their emojis so thoughtfully and then expounded their ideas lucidly.

Students of Std 7 expressed their thoughts and emotions by creating emojis to depict their reactions to various situations.
